CLAIRE LAMMAN

ClaireLamman.com | lamman.1@osu.edu | 0000-0002-6731-9329 | cmlamman

INTERESTS

I bridge the fields of cosmology and galactic astrophysics by finding novel correlations between objects in the non-linear regime of galaxy dynamics, such as galaxies and galaxy groups, and the large-scale structure of the Universe. I develop methods to quantify these correlations and explore the additional cosmological information they reveal in large spectroscopic surveys like DESI. I am also passionate about outreach and strive to make research accessible to broad audiences through creative mediums.

EDUCATION

Harvard University *2019 - 2025*
Advisor: Daniel Eisenstein
Ph.D., Astronomy and Astrophysics May 2025
M.S. Astrophysics May 2022

University of Colorado Boulder *2015 - 2019*
Astrophysical and Planetary Sciences, *Summa Cum Laude*
B.A. Astronomy May 2019
B.A. Physics May 2019

CURRENT POSITIONS

2025 NSF Astronomy and Astrophysics Postdoctoral Fellow 2025 - present

CCAPP Fellow 2025 - present
Center for Cosmology and Astroparticle Physics, Ohio State University
Department of Astronomy & Department of Physics

SELECTED AWARDS

Harvard Fireman Fellowship 2025
For best observational astronomy Ph.D. thesis

National Academies Eric and Wendy Schmidt Award for Excellence in Science Communications 2024
Graduate student winner, $20k prize.
Citation: "Claire Lamman makes complex topics accessible with creativity and innovation. Her use of unique and diverse mediums, including cartoon annotations of scientific papers, to communicate cosmology demonstrates her ingenuity and potential to reach wider audiences and highlights her ability to communicate science through diverse and engaging mediums."

Harvard Horizons Scholar 2024
Selected by faculty as one of eight students to represent extraordinary PhD research at Harvard.

NSF Graduate Research Fellow 2019 - 2023

Certificate of Distinction in Teaching 2020, 2021, 2022
Awarded by Harvard's Bok Center to teaching fellows with an overall student evaluation of 4.5 / 5.0 or higher.

University of Colorado Outstanding Undergraduate 2019
Top honor for CU Boulder's College of Arts and Sciences Spring 2019 graduating class.

Chambliss Astronomy Achievement Award (231st AAS Meeting) 2018

Jacob Van Ek Scholar 2018
"One of the highest honors in CU's College of Arts & Sciences" for superior academic achievement.

Boettcher Scholar 2015 - 2019
Merit-based, full-ride scholarship to any Colorado university

PREVIOUS POSITIONS

Independent Research University of Colorado, Boulder 2017 - 2019
M-dwarf multiplcity survey, awarded $3k grant by Boettcher Foundation to support research. Advisor: Zachory Berta-Thompson

REU Student University of Hawai'i 2017
Analyzing Robo-AO observations. Advisor: Christoph Baranec

Undergraduate Research Assistant University of Colorado, Boulder 2017
CMB Observations with South Pole Telescope. Advisor: Nils Halverson

OUTREACH

*I create many outreach materials, including artwork, comics, and cakes that have **reached millions** on social media. Below are a selection of my other projects and outreach roles.*

Accessible Paper Annotations 2022 - present
I 'translate' scientific papers with a cartoon overlay. This was featured in Physics Today and inspired many others. All can be found on my website.

DESI Press & Visualizations 2024 - 2025
Create graphics for and help construct DESI's press releases, including our Y1 and Y3 results. Featured in over 1000 unique articles, including the New York Times, NPR, and The Guardian.

Planetarium Film: "5000 Eyes: Exploring the Universe with DESI" Premiered 2023
In Collaboration with DESI and Fiske Planetarium
- Conceived, secured $73k, wrote, and directed
- Film translated into 8 languages and downloaded 421 times in 58 countries.

DESI's Education and Outreach Committee 2021 - present
Co-chair 2023-2025. *Making DESI's science and data accessible to broad audiences through DESI's website, events, press, and coordinating efforts within the 700-member collaboration.*

ComSciCon Leadership Team 2019 - 2023
- Organizer of Flagship Workshops '20, '21, '22
- Co-chair of Flagship Local Organizing Committee '21, '22
- Chair of Flagship Application Committee, '21, '22

Fiske Planetarium (CU Boulder) 2015 - 2019
Presented over 300 astronomy shows to the public and school groups, worked with lecturers to develop shows, trained student employees, operated theater, led outreach trips, laserist.

NASA Film Grant 2017 - 2019
Helped create a series of short planetarium films with Fiske Planetarium.
Conceived and wrote scripts for Parker Solar Probe and Transiting Exoplanet Survey Satellite

CU STARs 2015 - 2019
University group for astronomy and STEM inclusivity, outreach on campus and to under-privileged Colorado high schools

Imiloa Astronomy Center 2017
Volunteer at planetarium and Hawai'ian cultural center

OUTREACH PUBLICATIONS

Black Holes Aren't Black, An illustrated guide to Hawking radiation, *Physics Today* April 2026

Translating scientific papers for the public, *Physics Today* Dec. 2023

COLLABORATION MEMBERSHIPS

Dark Energy Spectroscopic Instrument (DESI) July 2019 - Present
Builder *Eligible for continuing participation at non-DESI institutions* February 2025 - Present

Service includes: testing fiber assignment, 30 nights of observing from commissioning through main survey, Intrinsic Alignment measurements for the weak lensing key project, internal reviewer, leading Education and Public Outreach committee, creating visualizations for papers and press releases.

SERVICE

Member of NSF Proposal Review Panel 2026

Reviewer 2024, 2025, 2026
The Astrophysical Journal, Monthly Notices of the Royal Astronomical Society, Open Journal of Astrophysics, The Journal of Open Source Software

CCAPP Seminar organizer 2026

DESI Intrinsic Alignment group organizer 2023 - 2024

Lead organizer of LILAC Workshop 2024
Including instigating and raising $6.9k to fund the workshop.

Faculty Hiring Student Representative (Harvard University) 2023
Elected to gather and report student sentiment to faculty hiring committee

White Paper Contributions 2023
- CfA white paper, co-lead author "ComSciCon"
- CfA white paper, coauthor "A Harvard Planetarium: Opportunity for Growth and Outreach"
- Harvard Science Center white paper, coauthor "A Harvard Planetarium and Science Center Expansion"

ADVISING & MENTORING

Primary advisor: Vivian Repka May 2026 - Present
Undergraduate research thesis (OSU Astronomy)
Multiplet alignment as a unique probe of HOD

Primary advisor: Laurinda Lan Sept 2026 - Present
Undergraduate research thesis (OSU Physics)
Galaxy alignment to host multiplets

Research Mentor: Nicole Gountanis Sept 2026 - Present
Graduate student project (OSU Astronomy) with primary advisor David Weinburg
Redshift-space cluster-galaxy correlations as a probe of gravity

Primary advisor: Annika Kumwembe May 2024 - December 2025
REU Student (Center for Astrophysics) & Undergraduate Thesis (St Mary's College of Maryland)
Supplementing DESI multiplet measurements with imaging data.

Co-advisor: Miguel Perdomo May 2024 - present
Undergraduate Thesis (Universidad de los Andes) *Primary advisor: Jaime Forero-Romero*
Exploring multiplet alignment in DESI's bright galaxy survey.

Co-advisor (single project): Ana Sofia Uzsoy February 2025 - present
Graduate student project (Harvard University) *co-advisor: Melanie Weber*
Applying geometric machine learning to identify cosmic structures

Mentor for SAO-UMass Latino Initiative Program 2023

Mentor for CfA Peer-Mentoring Program 2021, 2022, 2023

TEACHING

Astronomy Teaching Fellow Fall '20, '21, and '22
Harvard University, AY 17: Galaxies and Cosmology taught by Daniel Eisenstein

Observing Class Assistant Spring '23
Harvard University, department observing class consisting of lectures and tours of Arizona facilities

Learning Assistant Fall '16
CU Boulder, Stars and Galaxies for Non-Majors taught by Doug Duncan

AWARDED FUNDING

Pioneering methods to connect galaxies with LSS in upcoming surveys **$330k**
NSF AAPF

Excellence in Science Communication **$20k**
National Academies Eric and Wendy Schmidt Awards

Echo-IA Workshop, *Center for Astrophysics workshop fund* **$6.9k**

Planetarium Production, *DESI Collaboration* **$75k**

Gaia M Dwarf Multiplicity Survey, *NSF GRFP* **$102k**

Robo-AO Multiplicity Survey, *Boettcher Foundation Independent Research Grants* **$3k**

Boettcher Scholarship, *Boettcher Foundation* **$100k**

INVITED TALKS

I have been invited to give 30 colloquium and seminar talks and given over 50 research talks.

Public Lecture *National Air and Space Museum Explorins Space Series* March 2027
Astrophysics Seminar *University of Pennsylvania* March 2027
Physics Colloquium *Ohio State University* Dec. 2026
DESI Overview *CCAPP Workshop: Type-Ia Supernova Progenitors and Cosmology in Light of DESI* Oct. 2026
Astro Colloquium *Brasil National Observatory* April 2026
DESI Special Session opening talk *AAS 247* Jan. 2026
Astro Seminar *Kavli Institute for the Physics and Mathematics of the Universe* Sept. 2025
Astronomy Seminar *Perimeter Institute* Jan. 2025
DESI Plenary Talk *DESI Collaboration Meeting* Dec. 2024
Astro-Cosmology Seminar *Donostia International Physics Center* Nov. 2024
Lunch Seminar *Carnegie Observatories* Nov. 2024
Research Progress Meetings *Lawrence Berkeley National Laboratory* Nov. 2024
KIPAC Tea *Stanford University* Nov. 2024
Astro Seminar *New York University* Oct. 2024
Cosmology Meeting *Flatiron Institute* Oct. 2024
Cosmology Seminar *Princeton University* Sept. 2024
Astronomy Colloqium *University of Wyoming* April 2024
Midwest Cosmology Seminar *virtual* March 2024
Astronomy Seminar *University of Massachusetts Lowell* March 2024
Cosmo Talks *virtual* Feb. 2024
Lawrence Berkeley National Laboratory, DESI Lunch Seminar March 2023
Astronomy Lunch Seminar, *University of Colorady Boulder* March 2023
Astromerique Speaker Series, *University of Montreal CIELA Institute* March 2023
Astronomy Seminar *Northeastern University* Nov. 2022
LSST-DESC Intrinsic Alignment Meeting *virtual* Oct. 2022
CCAPP Seminar, *Ohio State University* Oct. 2022
Astro Seminar *Tufts University* Sept. 2022
Ralf Bender's Group Seminar, *Max Planck Institute, virtual* Sept. 2022
Seminar, *Kavli Institute for the Physics and Mathematics of the Universe* Aug. 2022

CONTRIBUTED & LOCAL TALKS

Cosmology from Home Sept. 2026
New Frontiers in Cosmology *A Coruna Spain* Aug. 2026
Alternative Clustering in Cosmology *AAPF MPS-Ascend Fellows Symposium* Jan. 2026
AAS Dissertation Talk *AAS 247* Jan. 2026

COSMO 25 *Carnegie Mellon University* Oct. 2025
Beyond-two-point Statistics Meet Survey Systematics *Kavli-IPMU* Oct. 2025
Students and Faculty Forum *Harvard Center for Astrophysics* Nov. 2024
ITC Lunch Talk *Harvard Center for Astrophysics* Oct. 2024
Galaxy Groups in the era of eROSITA and Euclid *Sesto Italy* July 2024
ITC Lunch Talk *Harvard Center for Astrophysics* Oct. 2023
Lars Hernquist Group Meeting *Harvard Center for Astrophysics* July 2023
Students and Faculty Forum *Harvard Center for Astrophysics* March 2023
Hol-IA: A holistic approach to galaxy intrinsic alignments *Lorentz Center* March 2023
Cosmology on the Beach *Cancún Mexico* Dec. 2022
From galaxies to cosmology with deep spectroscopic surveys *Marseille France* July 2022
Cosmology Journal Club, *Harvard Physics Department* April 2022
Department Research Forum, *Harvard Center for Astrophysics* April 2022
232 American Astronomical Society Meeting *Denver CO* June 2018

OUTREACH & PUBLIC TALKS

⋆*invited*

⋆Symposium on Science Advocacy *APS Global Physics Summit* April 2027
⋆Scientific Storytelling *Dartmouth University* Jan. 2027
⋆Careers in Science and Academia *Cañon City High School* Dec. 2025
⋆Annotated Papers: Broadening the audience of scientific manuscripts
AAPF MPS-Ascend Fellows Symposium Jan. 2026
⋆Astro Science Communication Workshop *University of California, Santa Cruz* Nov. 2025
⋆The science and making of 5000 Eyes *OSU Friends of Astronomy, Planetarium* Nov. 2025
⋆Astro on Tap: Tensions in the Dark Sector *Aeronaut Brewing, Cambridge* May 2025
Harvard Horizons: Untangling the Cosmic Web **April 2024**
⋆CYW Fair STEM Interview *online* May 2024
⋆Women in Cosmology Guest Lecture *Tufts ExCollege* April 2023
"5000 Eyes" Premiere Public Talk *Fiske Planetarium* March 2023
"5000 Eyes" Premiere, Panelist *Chabot Planetarium* March 2023
⋆North Shore Astronomy Club Nov. 2021, Nov. 2023
Skype a Scientist Oct. 2020, Feb. 2021, Jan. 2021
YouthAstroNet Astro Chat April 2020
CU Boulder Astrophysics and Planetary Sciences Commencement Speaker May 2019
CU Boulder College of Arts and Sciences - Honors Graduate Address May 2019

CLAIRE LAMMAN SCIENTIFIC PUBLICATIONS

ORCID: 0000-0002-6731-9329

NASA ADS: Complete Library | Highlighted selection

Last updated Oct. 2026.

I have seven first-author publications and advised supervised two student-led papers.
My total publication record contains 97 articles with an h-index of 18 and 5045 total citations (Metrics from NASA ADS).

First Author

7. **C. Lamman**, et al. *Intrinsic Tidal Shear at the Largest Scales: Galaxy Multiplet Alignment in DESI DR2, Open Journal of Astrophysics December 2025* | accessible summary

6. **C. Lamman**, J. Blazek, D. Eisenstein, *Optimal intrinsic alignment estimators in the presence of redshift-space distortions, Open Journal of Astrophysics December 2025* | accessible summary

5. **C. Lamman**, D. Eisenstein et al., *Detection of the large-scale tidal field with galaxy multiplet alignment in the DESI Y1 spectroscopic survey, MNRAS October 2024* | accessible summary

4. **C. Lamman**, D. Eisenstein et al., *Redshift-dependent RSD bias from Intrinsic Alignment with DESI Year 1 Spectra, MNRAS March 2024*, Volume 528, Issue 4, Pages 6559–6567 | accessible summary

3. **C. Lamman**, E. Tsaprazi, J. Shi, N. Sarcevic, S. Pyne, E. Legnani, T. Ferrira, *The IA Guide: A Breakdown of Intrinsic Alignment Formalisms, Open Journal of Astrophysics February 2024*

2. **C. Lamman**, D. Eisenstein et al., *Intrinsic Alignment as an RSD Contaminant in the DESI Survey, MNRAS April 2023*, Volume 522, Issue 1, Pages 117–129 | accessible summary

1. **C. Lamman**, C. Baranec, Z. K. Berta-Thompson, N. M. Law, J. Schonhut-Stasik, C. Ziegler, M. Salama, R. Jensen-Clem, D. A. Duev, R. Riddle, S. R. Kulkarni, J. G. Winters, J. M. Irwin, *Robo-AO M Dwarf Multiplicity Survey: Catalog, The Astronomical Journal March 2020*, Volume 159 Number 4

Second Author

9. A. Uzoy, **C. Lamman**, P. Zhu, M. Weber *Tracing the evolution of galaxy environments with manifold learning, Submitted to PRX Intelligence October 2026*
My main contributions are advising data interpretation and cosmological/astrophysical applications.

8. A. Uzoy, **C. Lamman**, M. Weber *Manifold Learning for Cosmic Structures Accepted to NeurIPS Machine Learning and the Physical Sciences Workshop December 2025*
[Conference Paper]

7. A. Kumwembe, **C. Lamman**, et al. *Enhancing Multiplet Alignment Measurements with Imaging, Research Notes of AAS November 2025*
My contributions are creating and guiding the project, serving as the student's main advisor.

DESI Publications

My main contributions to DESI survey include: testing fiber assignment algorithm, 30 nights of observing from commissioning through the main survey, Intrinsic Alignment measurements for weak lensing key project, serving as an internal reviewer, and creating visualizations for papers and press releases.

J. Siegel et al. *Intrinsic alignment demographics for next-generation lensing: Revealing galaxy property trends with DESI Y1 direct measurements*, MNRAS 2026

A. Bault et al. *Baryon Acoustic Oscillations from the C IV Forest with DESI DR2*, ApJ 2026

Y.-L. Chang et al. *Tracing the Cosmic Evolution of the Cool Circumgalactic Medium of Luminous Red Galaxies with DESI Year 1 Data*, ApJ 2026

D. Blanco et al. *The Power of DESI for Photometric Redshift Calibration: A Case Study with KiDS-1000*, OJA 2026

C.-P. Zhang et al. *Weak evolution of cosmic atomic hydrogen over the past 4.5 billion years*, Nature Astronomy 2026

R. Alfarsy et al. *Stacked reverberation mapping of high-redshift quasars in DESI. I. Feasibility analysis*, MNRAS 2026

S. Novell-Masot et al. *Cosmological constraints from the DESI DR1 joint power spectrum and bispectrum analysis*, JCAP 2026

V. Ramakrishnan et al. *ODIN: Characterizing the Three-dimensional Structure of Two Protocluster Complexes at $z = 3.1$*, ApJ 2026

E. Pinarski et al. *ODIN: Spectroscopic Validation of Lyα-emitting Galaxy Samples with DESI*, ApJ 2026

G. Yin et al. *Luminosity Function of Quasars at $1.0 < z < 3.5$ from SDSS and DESI*, ApJ 2026

J. A. Alcolea et al. *Beyond traditional emission-line diagnostics: Using autoencoders to uncover active galactic nuclei in DESI spectra*, A&A 2026

A. Crespi et al. *Baryon fraction from the BAO amplitude: A consistent approach to parametrizing perturbation growth*, Physical Review D 2026

E. McArthur et al. *Quasars Acting as Strong Lenses Found in DESI DR1*, ApJ 2026

C. Ross et al. *The DESI DR1 peculiar velocity survey: Fundamental Plane catalogue*, PASA 2026

R. Turner et al. *The DESI DR1 Peculiar Velocity Survey: growth rate measurements from galaxy and momentum correlation functions*, OJA 2026

X. Hall et al. *The DESI Transients Survey: Legacy Classifications and Methodology*, ApJS 2026

Y. Salcedo Hernandez et al. *Highly Efficient Selection of High-redshift Emission-line Galaxies for Future DESI-like Surveys with Deep Multiband Imaging*, AJ 2026

S. Moore et al. *DESI DR2 Galaxy Luminosity Functions*, MNRAS 2026

E. Fondi et al. *Assembly bias and local Primordial non-Gaussianity from DESI DR1 quasars*, JCAP 2026

R. Gsponer et al. *Fiducial-cosmology-dependent systematics for the DESI 2024 Full-Shape Analysis*, JCAP 2026

A. Carr et al. *The DESI DR1 Peculiar Velocity Survey: global zero-point and H_0 constraints*, ApJ 2026

A. Dey et al. *The Backup Program of the Dark Energy Spectroscopic Instrument's Milky Way Survey*, AJ 2026

T. Dumerchat et al. *Emulating galaxy and peculiar velocity clustering on non-linear scales, A&A 2026*

J. Hou et al. *Parity-odd Four-Point Correlation Function from DESI Data Release 1 Luminous Red Galaxy Sample, Physical Review D 2026*

A. Semenaite et al. *Joint cosmological fits to DESI-DR1 full-shape clustering and weak gravitational lensing in configuration space, OJA 2026*

S. Chiarenza et al. *Constraining primordial non-Gaussianity from DESI DR1 quasars and Planck PR4 CMB Lensing, JCAP 2026*
